

Architectural glazing project brief

A compact file for the first technical project discussion. Complete only the information already available.

1. Project and contacts

Project / address	_____
Architect / contact	_____
Project stage	☐ concept ☐ detailed design ☐ tender ☐ construction
Target timing	_____

2. Available information

☐ Floor plans	☐ Elevations
☐ Sections	☐ Opening schedule
☐ 3D / visualisations	☐ Façade details
☐ Finished floor levels	☐ Glass specification

3. Critical elements

Largest opening	Width ____ mm Height ____ mm
Solution type	☐ window ☐ door ☐ HS ☐ façade ☐ roof ☐ railing
Design intent	_____
Constraints	Concealed frame / low threshold / corner / automation / other: _____

4. Comfort and safety requirements

☐ Thermal / Uw	☐ Solar control / g-value
☐ Acoustics	☐ Fall protection
☐ Safety glass ESG / VSG	☐ Access control
☐ Motorisation	☐ Fire requirements

5. Building context

Wall build-up	_____
Façade / insulation	_____
Installation access	Crane / loader crane / scaffold / restricted access: _____
Question for BIFORIUM	_____

Working drawings, structural calculations and the final specification are project-specific. This file helps collect inputs but does not replace a designed solution.
